Machine Tool Orders Show Big Increase

CLEVELAND (A) - New orders for machine tools last month were the highest of any month since July of 1952, the National Machine builders Assn. reported today. October new orders totaled \$103,-400,000 up from \$61,300,000 in

September. Louis Polk of Dayton, president of the association, said the October surge was "a natural reflection of the machine tool show" in Chicago last September.

"Some companies had delayed buying until they could come to the show and see the new models," he said, adding that "it is as yet too early, however, to judge as to whether the October upsurge indicates a long-term trend."

Salem High Football

It is encouraging to see that efforts are being made to renew football rivalry between two fine schools-Salem and Lisbon High.

It was unfortunate, in the first place, that athletic contests between the neighboring communities were severed two years ago. The excuse, or reason, was that schedule preferences of the two schools conflicted. Be that as it may, most Lisbon football fans and a number of Salem boosters felt that Lisbon's repeated victories over Salem probably was a deciding factor in the decision not to play.

It is true that most schools have "off years" when the array of talent isn't too promising, but on the whole Salem should be able to field as good a team as any school in Columbiana County and neighboring counties as well. This theory doesn't call for an over-emphasis

of football, but does rely on the ideal that a good high school sports program in general is healthy and reflects favorably on other school activities.

If football, or any other sport for that matter, is worth playing, it is worth playing well.

O'Neill For Governor

It is heartening to see a man of the caliber of C. William O'Neill of Marietta in the race for

O'Neill formally announced his candidacy for the Republican nomination although it has been known for some time that he would declare for the office.

He is currently serving his third term as attorney general and has a background of 12 years in the Ohio Legislature, where he was speaker of the House.

He is one of the most popular men in his party in the state, and even before his announcement, 22 counties had endorsed his candidacy.

He has brought to every office he has ever held a boundless energy for work. As attorney general, he has demonstrated rare intelligence for organizational efficiency and has been a pillar of strength in his conduct of the state's legal

If he is nominated, Mr. O'Neill will make an intelligent, aggressive challenge for the office so long held by the Democrats, no matter who his opponent.

If elected, he will be an excellent governor.

Pity The Typist

Go, Go, Go!!!

Disturbing news is the announcement that the present typewriter keyboard, unchanged in 83 years, may be subjected to a face-lifting.

In the interest of speed and efficiency, the letters on the new experimental machine have been shifted to put those used most frequentlynamely the vowels-closest to the fingers which normally do most of the work.

Stenographers whose fingers were trained to punch keys as mechanically as one used to shift gears on an automobile will now have to be untrained for this flight into a strange new

"world." It is positively alarming!

The touch typists will be the most adversely affected. They will have to learn all over. It will be just another ordeal for the hun-tndpeck boys. Developers of the new keyboard claim it will

34 Turn Out For Cage Practice

3 Lettermen Back From '54-55 Team

A fresh, perfect sphere gradually begins to move a battered pigskin into the shadows as basketball, America's greatest spectator sport, hits the limelight this week.

Although most coaches in the district have just begun fundamental practice sessions and have yet to begin cutting the large crop of hopefuls that have turned out, they will travel to Sharon, Pa., to hold chances this season.

Salem Head Basketball Coach John Cabas, going into his fourth berths on the team this year.
